All-in-One Interactive Displays for Productive and Innovative Meetings

# BenQ Board All-in-One RE04FV

## **Built for Smart Workplace**

Enterprise-Grade Security

Google Enterprise Partner

Download essential work apps directly from the Google Play Store

The new EDLA-certified BenQ Board RE04FV provides office professionals with the best possible meeting room experience by combining hybrid video conferencing, seamless information sharing, and collaborative group discussion capabilities all in one.

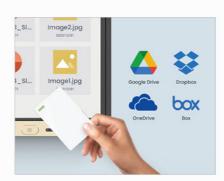

Integrated with Google EDLA-certified GMS (Google Mobile Services), you can directly access pre-loaded Google productivity tools and video conferencing apps, or flexibly expand your apps by directly downloading them through Google Play.

## **All You Need for Smart Meetings**

#### Hybrid video conferencing

Experience the best hybrid meetings with video conferencing apps, built-in camera, and array microphones.

#### Seamless information sharing

Simply tap an NFC card to log in to your AMS account and seamlessly access your meeting files on cloud storage platforms.

#### Collaborative group discussion

Create a flexible discussion environment by casting up to 9 screens from different OS devices using various casting methods.

## Design with Health in Mind

#### Made for Eye Comfort

BenQ Boards use advanced technology to protect your eyes by reducing blue light and flicker while maintaining vibrant colors.

#### Germ-resistance Surfaces

BenQ Board touch screens and pens are certified with a germ-resistance and non-toxic coating, helping to reduce bacterial threats in shared workspaces.

## Streamline Management with IT Tools

#### AMS

Account Management System

Importing users directly from Google Workspace, Microsoft Entra ID (formerly Azure Active Directory), ClassLink, LDAP servers, or other SAML-based identity providers.

- Streamline account management
- One-step login with NFC card
- · Personalized account and user experience

Device Management System

Cloud-based system for easy remote management and detailed user data analytics.

- Remotely install, update, and uninstall Android apps on multiple devices
- Scan to bind multiple devices to the admin account
- Deploy configurations in groups
